

Munson & McNamara

It has been our aim for some time to print store news that would be universally read. Our methods being right, have succeeded. Fresh items and true statements have won and held a reading constituency the like of which has not been known heretofore.

Under the leadership thus created a larger truthfulness has come about, but a mass of inaccuracy in advertising still remains which discounts the efforts of all sincere advertisers. Our interests demand a following up in this direction.

But we cannot follow it in detail. Every instance in which competing goods are offered as bargains, at higher prices than we charge regular, cannot be followed; when American satteens are sold as French, Seersuckers called Chambrays, and Cashmeres Henriettes—when such things as these are printed we cannot pause to contradict each misstatement.

The fixed principles beneath this business are our reliance. We try to make them plain and execute them.

Dress Goods continue to be in great favor. Our dress goods business is like a Niagara torrent; the main movement is deep and quiet and strong—stable, but as it moves it is jeweled with a brilliant spray of novelties that sheds over all a changing beauty that never fails to interest.

Where else can this be so? A makes a blunder—buys too many Sateens, B too many Challis, C this or that. Unless the jobber will relieve him, take back his goods or trade them for others, he must go on through the season loaded, handicapped, unable by reason of excess of one thing to buy what he needs for a well rounded stock. Do we ever make blunders? Bless you, yes; but we take no account of them. We are not limited. We may eat the bitter fruit of a buying blunder in silence; may smile at a loss while we win under it, but the stock never feels it. What you ought to have is here, if it can be procured in the best markets in this country.

Then, too, many things are here which you cannot get elsewhere.

These are some of the reasons why we are now prepared to show you a dress goods stock superior to anything in Kansas.

Munson & McNamara

textiles—the best grade at 19c a yard. No time to explain the tumble down double. They are here, that's the price and that's enough, save only that the designs are good, in popular colors.

But this has nothing to do with the regular lines of satteens, which range from 10c to 40c.

FREE WOOL

In the 20-cent Challis. You pay only for the spinning and weaving, printing and finishing, and nothing for the wool. Why should you, when they are at half the starting price and one-third off the rate of two weeks ago?

The call for them will begin as the door opens Monday, and will continue all day. The styles are beautiful and the price 20c.

More news of Sateens and Challis Tuesday. There is trading in the air.

OUTING CLOTH.

Just in, and bought in New York in May. The price, 9c for a good quality, indicates that we struck the market at a billion period. This is correct, for never in the history of our business here did we offer such bargains as we can just now. See this 27-inch Outing cloth at 9c, for it is great value.

COTTON CHALLIES

This is the cheap fabric of the season, cool and nice looking, without the cheap appearance. We have large varieties. Bulging lots at 5c, 6 1/2c and 7c. We name these just to give you the pitch of the price notes. These are not the qualities you get elsewhere for these prices, nor for one-third more. We have bargains for you now that will please alike your fancy and your pocketbook.

FAST BLACK HOSIERY.

Did you ever hear the like? Fast black hose for ladies, warranted stainless and of good quality, at 10c a pair. Of course we have plenty of them, but there will be plenty wanted at this price. The Hosiery department will force itself into prominence this week, as we will offer hundreds of dozens of good and fine hosiery at one-third off and more from opening prices.

GRADUATING AND EVENING DRESS GOODS.

These goods are here for the ladies who have been waiting, and others who are not yet ready for them. They are in Cashmeres, Henriettes, Albatross, Flannels and Challis; in cream white and delicate tints. They have been bought under value so you may expect a close range of prices.

SATEENS

From Mulhouse, which you know to be the hub of the sateen universe; printed by Koehlings, the art printers of

WHITE GOODS.

The stock of White Goods we now exhibit has been most carefully selected by Mr. Munson on a closing market, and his experience and judgment has resulted in the gathering of a stock which must be highly attractive and interesting to every buyer. There is the Victoria Lawn, India Linen, Domestic Cambrics, English Cambrics, Soft Nainsooks, Sheer Nainsooks, Swiss Mulls, Corded and Plaid Pique, Plaid Nainsooks, All-Over Tucking, Dotted Swiss, and many others. We can offer you all of these handsome white goods at prices that cannot be made by small dealers.

LACES.

In this department we can gain your attention, for we have here everything that is right, from the wee edges to the sixty-inch flounce, in white and black and cream and other colors that are right to use. None of the job lot stuff that was right a year or two ago. This department is attractive with us. Stop as you pass.

EMBROIDERY.

A word concerning Corsets. The new goods are all in stock and comprise the best shapes and latest styles produced by American, French and German makers. The goods have been selected with special reference to health, comfort and style. Special attention is called to our line of summer corsets which we are offering at most moderate prices. Stop at our Corset Counter. The stock for size and completeness we believe to be unsurpassed.

MILLINERY.

The breath of summer has been on Millinery, trimmed and untrimmed. No busier place in the store, and every stock looks almost as fresh and full as if Easter were but a day ahead. Everything is here in millinery and our prices will suit your pocketbook the best.

A BOON TO HOUSEKEEPERS.

That Egg beater turns hard duty into merry song. Indeed the ease, excellence and rapidity of the work is beyond belief in advance of demonstration. In fifteen seconds almost any mixture can be made ready to be turned into the best omelet that ever made a man's mouth water. It is a tidal wave of success. See it work tomorrow.

THE BICYCLE RACE.

CHICAGO, May 18.—Ned Reading, of Omaha, won the six day professional bicycle race. Early in the evening Reading, who was a lap behind Wilbur F. Knapp, of Denver, made a brilliant start, and passing Knapp left the Denver man a lap behind. The positions thus reached were maintained to the end. It could scarcely be called an exciting finish, the men being too exhausted by their week's journey to muster any extra strength at the end. Knapp claims that he was beaten by being kept in a pocket by the other riders while Reading was spurring. Shock has virtually not been in the race for several days past and lagged wearily at the wind up. The final score is: Ned Reading, Fort Omaha, 685 miles; 4 laps; Wilbur F. Knapp, Denver, 675 miles; 4 laps; John S. Prince, Omaha, 675 miles; 2 laps; W. J. Morgan, England, 675 miles; 2 laps; Albert Shook, Chicago, 667 miles; 1 lap.

THE BISHOP AUTOPSY.

NEW YORK, May 18.—The special autopsy on the body of Washington Irving Bishop, the mind reader, was made today. Dr. Ferguson, who made the original autopsy which the dead man's wife and mother asserted caused his death, was present. The examination, so far as possible to be made today, did not reveal the cause of death. Dr. Jenkins, however, removed particles of vital organs, microscopic examination of which is expected to settle the matter whether or not the mind reader died in a trance under the post mortem knife. Dr. Hamilton, Jagger and Spitzka, who were expected to be present, did not attend the autopsy. The last named physician is said to have made the declaration that it is impossible to solve the mystery at this late hour.

A MOB AFTER A MURDERER.

KANSAS CITY, Mo., May 18.—A Journal special from Beatrice, Neb., says that Chauncey West, a dealer in fruit trees, was shot and killed at a negro dance last night by William Carson, a negro. The murderer was arrested and tonight a mob of 1,000 is besieging the jail. Sheriff Davis ordered the crowd to disperse, but at 10 o'clock the crowd was still there. A posse was sent out and an attempt at lynching may follow. The jail is strong and may baffle the mob.

KILLED BY THOUGHTLESSNESS.

FORT WORTH, Tex., May 18.—While Charles K. Blonder, a carpenter, aged 34 years, was removing the scaffolding from the interior of the dome of the Texas State Palace building, this morning, he thoughtlessly sawed into a beam which supported the board on which he was standing. He fell thirty-five feet and died in fifteen minutes. His skull was fractured and several bones broken. He was from Belvidere, Allegheny county, N. Y.

FATAL RACE TROUBLE.

A SHOCKING TRAGEDY ENACTED AT FOREST CITY, ARK.

Cold Blooded Murder of Three of the Most Prominent White Citizens.

Negro Leaders Blamed For the Death—Flight and Secretion Their Only Safety.

Attempts to Control School Matters Originates the Trouble—Great Preparations for the Chatauqua Meeting at Ottawa—Notables to be Present—State News.

FOREST CITY, Ark., May 18.—Our quiet city was horrified at 2:15 p. m. today by a most terrible tragedy, resulting in the death of three citizens. For several days past excitement has been high over school election and A. L. Neely and G. W. Ingram, both colored, have been making incendiary speeches, advocating the ousting of the whites from the control of school affairs. Neely had been a disturbing element in the politics of this county for some time, having almost absolute control of negroes.

Today a large crowd assembled at the junction of Washington and Front streets in the vicinity of the polls. The exact origin of the trouble cannot be ascertained, but the terrible excitement, the consequence of the terrible excitement, he ascertained. As near as can be learned it seems that Neely had a fight with a white man and was knocked down by a bystander. He then ran to Captain John Parham for protection. Marshal Folbre interfered and commanded the peace. Thomas H. Parham, son of John Parham, heard the disturbance and came running down stairs from the county clerk's office, where he was employed as deputy, with a pistol in his hand. He saw the marshal with his father, in proximity to each other, raised pistol and fired, the bullet striking Folbre in the back of the head. In falling Folbre raised his pistol and fired two shots. Tom Parham fell mortally wounded and died in a short time after falling on the sidewalk. Sheriff D. M. Wilson came running to the scene when a stray ball struck him piercing his heart and he was killed. The only words being "I am a dead man." It is supposed a ball from Neely's pistol killed Sheriff Wilson. Captain John Parham is thought to be wounded, but refused to allow the wound to be examined. Wilson and Parham are known to be fanatics.

G. W. Ingram, who is the corner of the county, was waiting on the sidewalk after school and invited to citizens, which he did on the 6 o'clock train. Neely and his companions are in a building on Washington street, surrounded by armed men. Folbre was shot in the head, and his body is being guarded by a large number of men. The crowd is being kept back by a line of police. The situation is very serious.

CHATAUQUA ASSEMBLY.

OTTAWA, Kan., May 18.—Yesterday was opening day for reserving tent locations for the Ottawa Chatauqua assembly. The following instructions have been engaged: Rev. J. L. Hubbert, D. D., Dr. George F. Penitist, Dr. George F. Hays, Prof. H. S. Jacoby and Mrs. M. Kennedy. The lecture platform consists of the following distinguished gentlemen: Bishop John H. Vincent, Sam P. Jones, Dr. William Butler, Colonel George W. Bain, Rev. George Miller and others. Dr. H. R. Keiser, of New York, trains the great choir. Grand Army day is to be the greatest in the history of the assembly. United States Senator J. M. McKim, will be chairman; Corporal Tamm, commissioner of pensions; Governor L. C. Humphrey, Hon. Henry Smith, department commander of G. O. P., ex-Governor George T. Anthony and Major T. J. Anderson.

THE ROBBERY OF WHAM.

WASHINGTON, May 18.—The Adjutant General has received the following telegram announcing the capture of two of the men who robbed Paymaster Blum at Rocky Gorge, Ariz.: SAN FRANCISCO, May 17, Adjutant General, Washington: The commanding officer of the department of Arizona, telegraphs that the commanding officer of Fort Thomas, Ariz., reports that Cyclone Bill, arrested at Tucson and was brought into the post on the evening of the 16th of May by Lieutenant Clark and United States Marshal Breckenridge; that Commanding Officer Thomas caused the arrest on the evening of the 16th, of J. E. Cunningham, of Ft. Thomas; that both have been identified by some of the paymaster's escort and the woman Frankie Stratton as being the two robbers. The commanding officer of Ft. Thomas believes the rest of the robbers will be captured.

GENERAL COMMANDING.

THE MEAT COMPANIES CONSOLIDATED.

NEW YORK, May 18.—At the adjourned meeting of the representatives of the American Meat company and the directors of the American Cattle trade, this afternoon the two concerns were finally consummated. A contract for a term of years was drawn up and signed by the controlling powers of the two organizations by which the meat company will supply the entire product of the cattle trade. Senator Dorsey, one of the moving spirits of the meat company, expressed himself as well pleased with the new arrangement. He preferred not to mention the details of the compact, but said that the two organizations had not been consolidated. "We have effected a traffic agreement," he added, "which practically makes the American Meat company the agent of the American Cattle trade."

NEW YORK DRY GOODS.

NEW YORK, May 18.—Relative quiet prevailed today in the dry goods market and a few hours only were accorded to business, as many of the commission and jobbing houses began the summer closing of their stores at 1 o'clock. A fair business was doing but there was no new feature. The market was unchanged with the previous upward tendency on goods nearest the raw material. Satins and chailles are fairly active and there is more doing in medium and staple line. Bayard brown cottons and staple colored cottons.

THE TROOST WILL CASE.

KANSAS CITY, Mo., May 18.—The suit of the heirs of Mary A. Troost contesting her will which bequeathed most of her property to charitable objects, was decided against the plaintiff's today. The property involved is now worth one million dollars.

AMERICA'S SAMOAN DELEGATES DOING GOOD WORK.

The Western Commissioners Too Strong for the Germans, While England is Neutral.

The American's Tripartite Government Scheme Likely to be One Adopted.

About All the Heavy Work Done—Indemnity to Germans Not Considered—The Commissioners Warmly Received—Starting Developments in the Recent Plot to Assassinate the Czar.

Copyright 1889, by the New York Associated Press.

BERLIN, May 18.—The fourth session of the Samoan conference was held yesterday. The proceedings were almost entirely formal. They consisted chiefly in listening to reports of the various sub-committees which have been holding daily sessions ever since the conference met. At these meetings the real work of the conference has been transacted and as nearly as can be learned the American commissioners have succeeded in carrying every important point they set out to obtain. Indeed so prevalent is this feeling in Berlin that the Berlin press and other influential papers in Germany complain of the success of the Americans. While the greatest secret in regard to the proceedings is maintained and heretofore nothing much beyond the fact that the meetings had been held was known, it can now be stated that, excepting the question of indemnity for German sailors killed and beheaded by the Samoans and one or two other minor points, the question of the restoration of the island to the Samoan government is about over. It is thought that the restoration of Maitaitai to power is assured and that the plan for a tripartite government in Samoa for which the American commissioners contested against the German plan for one representative selected by the three powers will surely be put into effect. It is more likely that the commission has decided in favor of absolute independence of Samoa as soon as the people there demonstrate their ability to do so.

The indemnity question is yet to come up. It may prolong the meeting some weeks, but this is believed to be the only point on which there is likely to be a serious conflict. The question of the long experience in America with the tariff and of his experience in establishing a government out of the discordant elements in Louisiana. The duty of this committee has been to examine the material for general conference. In this connection was a plan to settle disputes concerning land title in Samoa. The German, French and American inhabitants of Samoa have been acquiring land so fast in Apia that little remains for the natives, and it is claimed that their titles in many instances are doubtful, or have been given to them by irresponsible natives in exchange for liquor and trifles.

This committee was also entrusted with the work of settling the form of government at Apia. It is rumored that the plan agreed on is that America, Germany and England shall each appoint a representative and that three more members of a board of control shall be chosen by rate payers. No liquor shall be sold to natives, although foreigners can have it, as they choose in private houses. The board of control to be sold to the government and then only under certain restrictions, which prevent their use except for keeping the peace. A plan for giving the Samoan a revenue has also been devised, which provides for the establishment of their right to impose import and export duties, which right is taken from them by the existing German treaty. It is understood that the representatives of the three governments have expressed confidence of being able to obtain from their government this concession to help Samoa.

The stay of the American commissioners in Berlin is being made very pleasant. They are overwhelmed with social attention from distinguished residents. Germany is no more willing than America to yield. Anything that would insure Samoan independence and give the natives a better chance is prime impulse of the German as well as of the American delegation."

FUNERAL SERVICES.

The Remains of Minister Allen Thordyke Rice Buried from Grace Church.

NEW YORK, May 18.—The funeral of Allen Thordyke Rice took place at Grace church, Broadway and Tenth street, at 10 a. m. today. The remains had been removed yesterday from the Fifth Avenue hotel to the residence of his sister, Mrs. Edward Cooper. There it was that the pall bearers assembled at half past 9 this morning. The pall bearers were Vice President Levi P. Morton, Walker Blaine, representing the department of state, General W. T. Sherman, ex-Mayor Edward Cooper, Pierre Lorillard, Chauncey M. Depew, Sholin, William Jay, William P. Douglass and W. W. Astor.

The remains were encased in a casket of solid rosewood on which was a plate bearing the name of the deceased, the date of his birth and the date of his death. The casket was completely covered with flowers. All these were carried to the church with the casket and other emblems awaited it there. Among the gifts of flowers was one from the president and Mrs. Harrison. The funeral cortege arrived at the church at 10 o'clock. The church was crowded and the sidewalks near the entrance were also filled.

The service was the regular burial service of the Protestant Episcopal church. Bishop Potter officiated, assisted by the Rev. Dr. Huntington, rector of Grace church, and Rev. George H. Bottoms, his assistant rector.

At the conclusion of the service the remains were exposed to view in the vestibule. The pallbearers and the clergyman took up a position on one side of the casket and all the people as they passed had an opportunity to see the face of the dead editor.

ACCUSED OF POISONING HER HUSBAND.

LONDON, May 18.—Mrs. Maybrick, a niece of Jefferson Davis and a French Canadian by birth, has been arrested at Liverpool on the charge of poisoning her husband with arsenic. Mr. Maybrick, who was a prominent merchant, died with symptoms of slow poisoning. His brother Michael, known as Stephen Adams, a musical composer, and other relatives suspected poisoning as the cause of his death. A count y magister, Colonel Biddle, accompanied by the chief of police, went to the Maybrick residence. They were told the lady was in bed. Medical men were summoned and after an examination they pronounced her fit to hear the charge. Her solicitor demanded to know the nature of the evidence. The chief of police responded that he had grave evidence against the woman had given arsenic to her husband from time to time. The officials went to the bedroom, where the woman lay haggard but unshaken. The magistrate directed that she be removed to Kirkdale jail, where she is now being attended by doctors and a nurse. The case has caused a great sensation.

AFTER A MURDERER.

NIOMBARA, Neb., May 18.—A detachment of troops from Fort Randall arrived here this morning in search of Private William McLaughlin, of company C, who escaped from the guard house at 10 o'clock this morning. The man was charged with the killing of a girl named Maggie Lowme last night. He had been keeping company with her and last night they quarreled and another young man, who was McLaughlin's jealous and he shot her dead with a rifle.
